

DIRECTIONS FOR OWNERS FOR A PHRF OF E.L.I. RATING CERTIFICATE

Please download and complete all portions of the Rating Certificate Application from this website excluding the block reserved for Handicapper use. Please fill in **all** the required information. With more information available, fewer assumptions must be made and your handicap will more accurate and equitable. If you are providing measurements in metric units, please check the appropriate box on the application form. Also please note that the LP of your largest jib may be entered either as a specific dimension or as a percentage of the boat's J dimension. Enter that dimension either way but not both ways.

Measurement terms and procedures are defined on the explanatory sheets posted on this website. If there is more than one version of your boat, please state which version you own or explain the principal differences between your version and others produced in the same line. Also be sure to list and explain any alterations or modifications from the standard model that have been made to your boat. Should you have questions regarding any of the required information, please contact one of the handicappers listed below.

Please e-mail your completed application to one of the handicappers listed below. You will receive back your completed Rating Certificate by e-mail. That Certificate will show the current handicap rating for your boat. This completed certificate constitutes your only evidence of a currently valid rating and should be retained for your records. A copy can then be attached to each individual race entry form.

Rating certificates are issued annually and automatically expire on April 30 of the following year, or when replaced by a newly revised certificate, or when the rated yacht changes ownership, whichever event occurs first.

INDIVIDUAL CERTIFICATE FEES PAY ON LINE AT

[Eastern Long Island Yachting Association - ELIYA \(elisailing.org\)](http://elisailing.org)
